## 2. WHAT MAKES BITGAIN TECHNOLOGY THE PREMIER CHOICE

6 Cores that makes us the premier choice,

**INTELLECT & EXPERIENCE** Highly skilled professionals who possess expertise in diverse Business and Technology areas make up the Business Technologies team. To provide world class service, we employ the best technicians, adhere to proven methodology, provide superior client service, and become a true business partner in every project.

**OUR APPROACH** Our Roadmap to development is a collection of eight steps, each of which has its own significance. Data Mining

- Forming a sketch
- Designing
- Making a blueprint
- Constructing
- Testing
- Deployment
- Maintenance & Up gradation

**COMMITMENT TO QUALITY** We believe in Quality service and our approach has been designed to provide the same. We listen carefully to our clients and provide space, time, and materials according to the agreement for the project. We are proud of our Technical and Creative capability, and this emerges from taking time to get it right. Our Quality Assurance Department tests throughout the process to ensure that the project will be successful.

**ON TIME DELIVERY** We invest the time up-front to clearly understand your needs and then manage projects to ensure they are delivered on time and within budget. This methodology expedites rapid successful implementation, limits uncertainty and keeps the customer always aware of development progress at our end.

**COMPETITIVE PRICING** We render services to our clients at a very competitive price and depending on the type of client engagement we offer them the most suitable pricing model structure which could either be fixed price based, time and effort based or a dedicated offshore team model.

**TRACK RECORD** We have handled small - large scale projects and have over the years implemented solutions for numerous organizations of all sizes. Our growing list of satisfied customers' not only act as our excellent references but are also a source of our repeat business.

## 6. METHODOLOGY & FRAMEWORK

### 6.1 AGILE METHOD

Based on the client requirement & type of the project we prefer to go with the appropriate project execution methodologies & approach. It helps with the development of high-quality IT products that meet or exceed customer expectations, reaches completion within times & cost estimates.

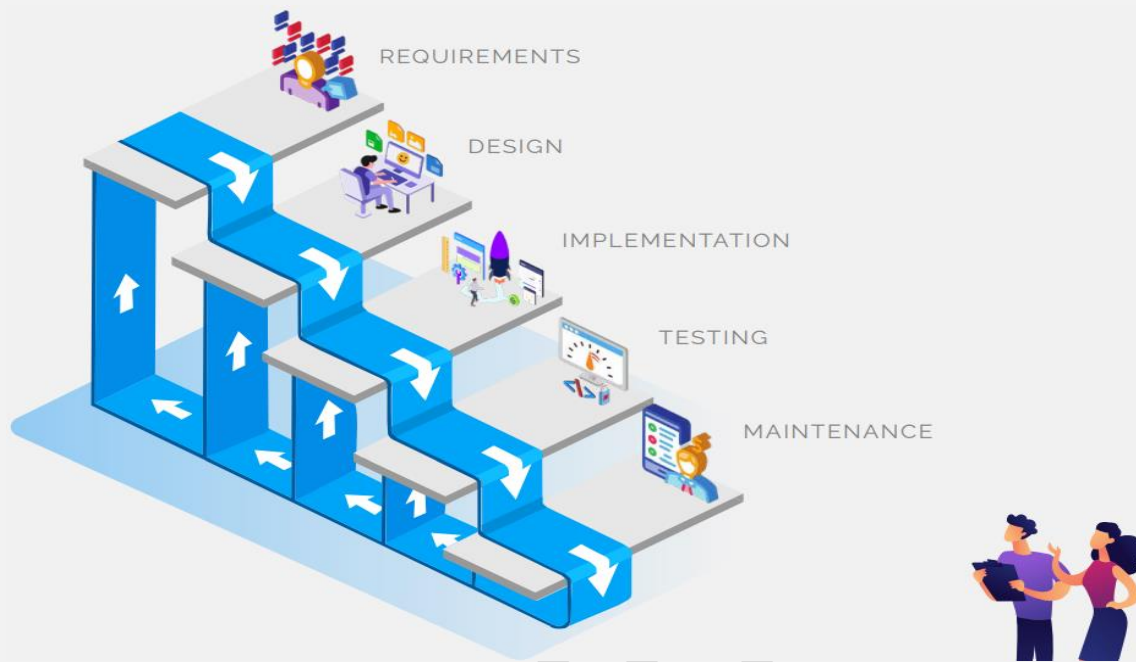

#### WHEN TO USE:

- Few Initial Product & Regulatory Requirements
- Lenient Processes in Place
- High Product Owner Involvement
- Innovative product development from scratch
- Short, Flexible Timeline
- Budget with Wiggle Room

## 6.2 WATERFALL METHOD

The Waterfall methodology is the traditional and the most common methodology used for project management. It follows a sequential, linear process which is why it is often described as a “linear-sequential life cycle model”.

### WHEN TO USE:

- Many Initial Product Requirements & Strict Regulatory Requirements
- Strict Processes in Place
- Low Product Owner Involvement
- Enhancement to an Existing Product
- Fixed & Firm Timeline
- Fixed, Inflexible Budget

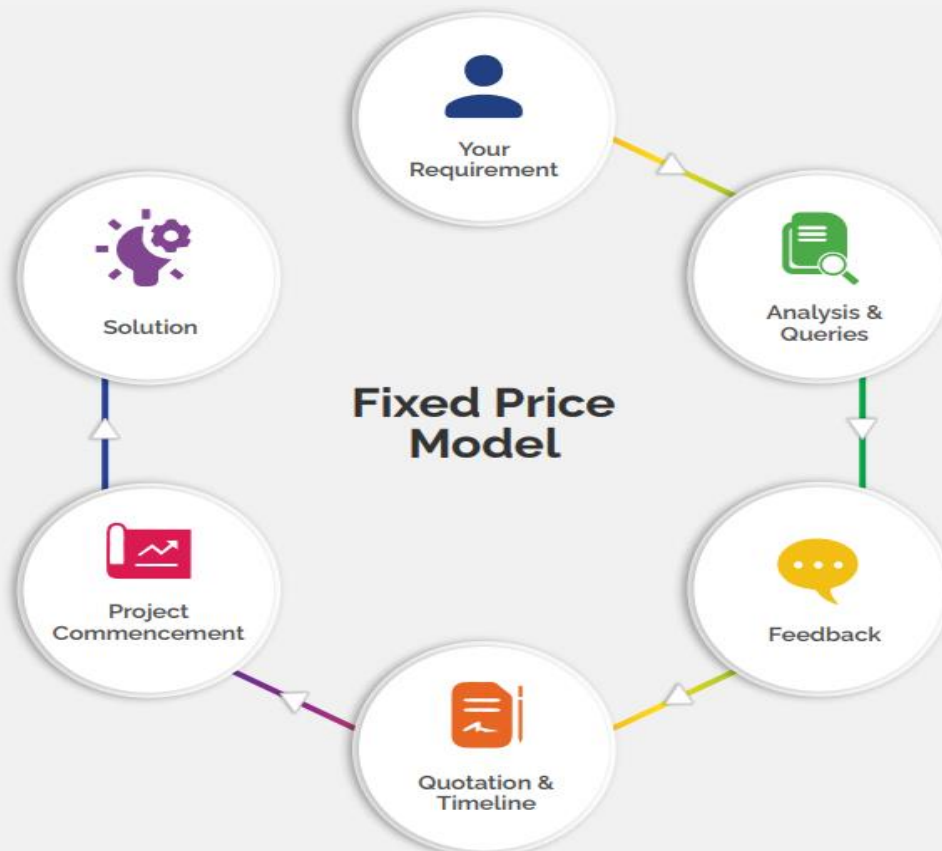

## 7. ENGAGEMENT PRACTICES

FIXED COST	HOURLY MODEL
 <p>If your company or you have a fixed set of software development requirements or ideas for creating new solutions or services, then the fixed cost model will be the best suited for you.</p>	 <p>If you or your company has software development requirements that would demand adopting changes and flexibility, then the hourly model is best suited for you.</p>
T & M MODEL	PARTNER WITH US
 <p>You can hire our dedicated resources as well. They will only be working on your project. A daily timesheet of your work will also be submitted to you. Even though you hire dedicated resources.</p>	 <p>You can also partner with us for your growth and diversification on a mutual benefit basis. We will give you qualified and experienced professionals with sound domain knowledge.</p>
